OUR MISSION & PROGRAM PILLARS

Our mission at Teen Travel Network is to build confidence, curiosity, and connection in the next generation of global citizens through travel.

We accomplish this mission through our three Program Pillars of Confidence, Curiosity and Connection.

Confidence

Intentional travel instills in teens the confidence to step outside their comfort zone and test the waters in a hectic and fast-moving world. Going places where many others don't, while becoming familiar with how to travel in a group, teaches and builds confidence in young people.

Curiosity

Considering the world through a new perspective fosters creative thinking and curiosity. Travel gives us the opportunity to test our curiosity. We're able to step off the beaten path, ask questions others are too hesitant to ask, and peek our head around the corner and wonder, "What's out there?"

Connection

Connect with others from countries, cultures and backgrounds that are different than your own and network with each other to build a rich community, both globally and locally.

LETTER FROM THE EXECUTIVE DIRECTOR

To all of our aspiring global travelers and parents: Welcome to Teen Travel Network! On behalf of the TTN team, I would like to invite you to travel with us to one of our destinations around the world on a specially curated experience. At Teen Travel Network we believe in connecting through travel. Through travel, teens can build meaningful connections to the people and cultures around the world and go beyond their textbook pages and experience these locales firsthand. Not only that, teens have the opportunity to develop independence and confidence by traveling with their peers and safely learning along the journey carefully guided by travel pros.

If you are considering a Teen Travel Network program this summer, this catalog will serve as an excellent guide toward the destination and itinerary that you're looking for. We offer various programs in our 4 category types: Exploration & Discovery, Language Learning (Spanish & French), Arts & Culture and Outdoor Adventure. Imagine this summer hiking in the Alps, learning French through conversing with locals, quenching your wanderlust for the Mediterranean, going backstage in the UK Theatre experience, becoming an Italian culinarian, exploring STEAM or exploring the Golden Circle in Iceland.

Parents— Sending your teenager to an overseas destination can be daunting, but we are here to make it easy. We have an amazing team of trip leaders, travel experts and admissions staff here to help you every step of the way, from choosing the right destination to following up afterwards. TTN is unrivaled in the summer trip space. We have decades of travel experience with our sister programs — [Global Leadership Adventures](#) and [Summer Springboard](#) —taking teens on unforgettable adventures from Africa to Asia and everywhere in between. As a parent myself, teen safety is a top priority as I understand firsthand what it means to entrust your child to travel. We work hard to ensure that our teen travelers are safe and supported during the whole travel experience so they can come home with the excitement from their journeys and a million and one stories to tell you and show you through our (no extra fee) curated photo albums and blogs!

Teens— Embark on an adventure you will never forget. We guarantee the travel bug will bite you! You will meet like-minded people who share that passion for travel and new experiences as you interact with local cultures together and start creating your path as an experienced explorer. You will learn how to travel like a pro and explore like a local.

At Teen Travel Network, we are here to help build confidence, curiosity and connection in the next generation of global citizens through travel - we hope you join us!

Let us help you make your summer plans a reality.

ABOUT TEEN TRAVEL NETWORK

At Teen Travel Network, teens have the unique opportunity to see and learn about the most iconic places on Earth.

Teen travelers are invited to explore new ideas and confront global challenges, all while having fun and meeting core learning objectives tailored to their travel. Our trips are open to high school students ages 14-18 and are offered worldwide, including destinations across Europe, Asia and the Americas.

From locally-led experiences to thoughtful group discussions, teens will see firsthand how immersive travel is not just about a place, it's about people. Consider what meaningful goals you would like to set for your future and how the connections you form with your new network of travel companions will stay with you after your journey.

When you join a TTN trip, you are not only learning how to travel like a pro, but you are also exploring like a local. And when you return home, you will be part of our incredible alumni network of teen travelers who have experienced a global adventure few people get to experience in their entire lifetimes: a network for which you will have a lifetime passport.

Why Choose Teen Travel Network?

At Teen Travel Network, we believe that building connection through travel is transformative, and that teens benefit tremendously from stepping outside their comfort zone before heading off to college.

During their travels, teens will be guided through their journey by Teen Travel Network's intentionally curated trip itinerary, which is designed to take teens on a journey to uncover their personal vision, purpose and knowledge of themselves, as well as their role in the world.

Our teens come away as experienced explorers and global citizens ready to engage with the wider global community, equipped with both a broader understanding of the world at large and their possibilities to continue to

meaningfully connect with it. Unlike other travel operators focused only on checking off boxes next to big-name landmarks on an itinerary, Teen Travel Network prides itself on being that first, confident step for students to travel without their families, forge bonds with like-minded peers, and build networks with others that they will carry with them long after they step foot back home.

Sure, you'll of course still see the Eiffel Tower, Mount Fuji, Machu Picchu or other spectacular sites along the way! But between those landmark visits, you will also benefit from an intentionally designed experience meant to be shared with others, through meaningful peer-to-peer engagement and cross-cultural exchange. Teens will learn how to travel like a pro and explore like a local!

EXPERT STAFF

TTN's Trip Leaders are passionate leaders and teen experts. We hire knowledgeable, responsible and FUN individuals; we know that having the right leaders makes all the difference in creating a comfortable, safe and inclusive learning environment. Travelers are led by International Directors and Trip Leaders with years of professional experience working with youth. Some trip staff have worked with non-profits, while others bring experiences studying at renowned educational institutions. Whatever their background, our staff are confident travelers and are adept at facilitating cross-cultural exchange. Our staff elevate a trip from simply being a trip to being a life-changing journey.

LOCAL PARTNERSHIPS

Authentic partnerships are vital in paving the path towards responsible travel experiences. At TTN, we recognize that working with local partners that we trust is a fundamental part of creating strong community connections and immersive cultural activities. Our partners provide critical context and knowledge that only a resident can give, which gives our travelers locals-only access to authentic experiences. TTN's local partnerships are a core part of creating exciting and immersive travel trips for teens who join us. Our travelers interact with and learn from local tour guides, educators, NGO partners, host families and other area experts.

FREE PHOTO MEMORIES

Don't just leave your TTN trip with memories of a life-changing experience, leave with the confidence to be independent with your solo travel, more curiosity for the world, and connections with like-minded teens you've met in your travels. Now, when you finish, you will have photos as proof taken by our Trip Leaders and allow you to relive those memories until your next TTN trip.

5-POINT SAFETY SYSTEM™

Safety is our first priority. While we are invested in helping teen travelers step out of their comfort zones, we are committed to managing the risks of doing so. We've carefully crafted and continue to enforce our **5-Point Safety System™**, a set of rigorous standards that support the safety, health and well-being of students on every trip.

TTN Home Base: Safe & Secure Accommodations

Utmost care is taken to provide safe and secure accommodations.

Accommodations vary based on location, but strive to include exclusive spaces reserved for TTN travelers and staff. It's our home away from home, a place to relax, the gathering place for meals and sanctuary for reflection and team building.

Every TTN accommodation is classified in one (or more) of the following categories: an **exclusive hotel** or **youth hostel block**, **cozy guesthouse**, **bed and breakfast**, or **ecolodge**. Every traveler will have an individual bed. (See program specific information on our website). In most cases, students will have access to shared and/or communal bathrooms – gender segregated whenever possible.

Caring Supervision & Expert Local Knowledge

TTN's supervision policy is that no traveler should ever be by themselves at any point in time outside the established guidelines. Travelers may be with staff members or in small groups. Our traveler to staff ratio is typically 7:1. Our local partners and in-country staff have intimate knowledge of the host community and country, are familiar with the area's medical facilities and are uniquely equipped to handle itinerary adjustments and emergencies. This does not mean that the traveler to staff ratio is met at all times. This means that if there are 24 travelers on a program, four staff are needed to support that program. We aim for there to be no more than a 10:1 traveler to staff ratio at any time during the program.

Example: On a program with 24 travelers, there will be four staff. At any given time, there may be three staff with the bulk of the travelers, the fourth staff member planning the next set of activities, taking care of a sick traveler, or taking some down time. This ratio is designed

to give travelers appropriate support and ensure staff are well rested and taking care of themselves. Happy and healthy staff are a better support to all of our travelers.

Safe Transportation

From the moment travelers arrive, they are greeted by TTN staff and transported to their accommodations in that location. In the case of a flight delay, staff will wait for their arrival or return to collect the traveler at the updated arrival time.

Transportation between accommodations and activities is always in TTN-approved vehicles or via the mode of public transportation most appropriate for each specific location.

For example, in Europe travelers will take public transport such as trains in small groups supervised by a staff member; in other countries where public transport is not as reliable, we will use TTN-approved vehicles such as buses or vans. In some cases, a taxi may be used but only with TTN staff in accompaniment.

In some countries, TTN-approved vehicles may be private taxis / Ubers, a bus, a boat, a train or a subway/metro system. Travelers will be accompanied by staff in all of these situations. [i.e. Greece public boat to outer islands; subway, train or bus in Europe]

In some countries, due to airport regulations, staff are only able to drop travelers at check in or at the entrance to the airport. TTN staff will remain nearby and available by phone to help travelers with any challenges. On U.S. based programs, TTN staff will drive a multi-passenger van and comply with the standards regarding safe driving.

Healthy Meals and Drinking Water

Meals are prepared fresh daily by accommodation staff or vetted restaurants, and include a healthy mix of grains, protein, vegetables and fruits. Travelers will enjoy local cuisine throughout their travels. We are happy to provide a list of select trips that can best accommodate a traveler with particular food allergies or dietary restrictions. Travelers will always have access to unlimited safe drinking water and will be provided three meals per day.

Vegetarian and vegan options can be present at every meal. Due to cultural influences on food choices and available local ingredients, vegetarian and vegan meals may not vary greatly every day. We strongly recommend vegetarian and vegan travelers bring extra snack bars / personal snacks to assist with their own variety and needs.

Safe drinking water does not necessarily mean bottled water. In some TTN destinations, tap water is safe to drink or a trusted filter system is used to minimize trash/waste from plastic water bottles. Snacks may not be provided on all programs or on a daily basis.

24/7 Support & Emergency Response

TTN provides 24/7 support and a helpline while trips are in session. While incredibly rare in occurrence, TTN has a plan in place for all types of emergencies and situations that could arise. TTN does this through diligent risk management and identifying proper health and support facilities within the vicinity of our programs. TTN provides medical and evacuation insurance to all teen travelers, and professional medical support is also available to our teams 24/7 should specialized guidance be needed.
